Brüssel-Saal
Poster-Workshop L

14.00 – 15.30

L.16 High Dose Intralesional Recombinant Interferon-Alpha-IIb-Treatment in HIV-1-Infected Patients with Kaposi's Sarcoma
B. Tschechne, P. von Wussow, I. Schedel, and H. Deicher, Hannover

L.17 Bone Marrow Cell Number Play, but GvHR-Induced Immunosuppression Does Not Play a Role in Preventing Graft Rejection after Allogeneic Bone Marrow Transplantation (BMT)
L. Uharek, B. Glass, W. Gassmann, H.-U. Wottge, H. Löffler, and W. Müller-Ruchholtz, Kiel

L.18 Effective Natural Interferon-Alpha Therapy in Recombinant Interferon-Alpha Antibody Positive Hairy Cell Leukemia Patients
P. von Wussow, D. Jakschies, H. Pralle, R. Sonnen, and H. Deicher, Hannover

L.19 Increased C3a-desArg Concentration as Indicator for Neonatal Infections
G. Zilow, R. Burger, M. Stuthe, and E.P. Zilow, Heidelberg

Lüttich-Saal
Poster-Workshop A

B Lymphocytes and Their Products

16.00 – 17.30

A.1 In Vitro Differentiation of Chronic Lymphocytic Leukemia (CLL) B Cells
H. Abts, J. Irsch, P.D. Wickra-Manayake, V. Diehl, and H. Tesch, Cologne

A.2 Isolation and Characterization of IgE-Binding Factors Derived from Sera of Atopic Patients
J. Bujanowski-Weber, Ilse Knöller, and W. König, Bochum

A.3 Tolerance Induction in Ig Transgenic Mice: Definition of Antigen and Antibody Dependent Variables
R. Carsetti, G. Köhler, and R. Lamers, Freiburg i.Br.

A.4 Specific Antibody Responses in Peripheral Blood Reconstituted (PBL) SCID-hu Mice
P.T. Daniel and P.H. Krammer, Heidelberg

2028502260

Source: https://www.industrydocuments.ucsf.edu/docs/pgdl0000

Lüttich-Saal
Poster-Workshop A

16.00 – 17.30

A.5 Induction of Apoptosis Is Dependent on Crosslinking of the APO-1 Cell Surface Antigen
J. Dhein, B.C. Trauth, and P.H. Krammer, Heidelberg

A.6 Gamma-1-Heavy Chain Disease with Bence Jones Proteinemia and Proteinuria
G. Hauke, E. Schiltz, U. Krawinkel, G. Wolff-Vorbeck, H.-H. Fiebig, Anna Hollmann, and H.H. Peter, Freiburg i.Br.

A.7 Immunoglobulin Class Switch: IL-4 Induced and B-Cell Specific DNA-Binding-Proteins in the Control Region for Sγ1 Sterile Transcripts
H. Illges and A. Radbruch, Cologne

A.8 Human Monoclonal Polyspecific IgM Antibodies React with Tumor Cells
S. Jahn, J. Bohn, Birgit Reipert, U. Settmacher, Julia Schwab, H.-D. Volk, and R. von Baehr, Berlin

A.9 Using Global Analysis of Membrane Proteins from WEHI 279.1 Subclones Coexpression of Protein Group Is Revealed
B. Kleine, Freiburg i.Br., W.G. Bessler, Freiburg i.Br., A. Coutinho, Paris, and J. Kettman, Dallas

Lüttich-Saal
Poster-Workshop A

16.00 – 17.30

A.10 Expression of the APO-1 Antigen on Glioblastoma Cell Lines and Their Susceptibilty to Apoptosis
E. Knipping, H. Fischer, and P.H. Krammer, Heidelberg

A.11 Attempts to Establish a Mouse Model for the Rush Hyposensitization in Type I Allergic Reactions to Bee Venom
L. Kolbe, Münster, C. Heusser, Basel, and E. Kölsch, Münster

A.12 Expression of the Neural Cell Adhesion Molecule L1 by Hematopoietic Cells
Aiga Kowitz, G. Kadmon, Melitta Schachner, and P. Altevogt, Heidelberg

A.13 B Cell Development in Scid Mice with Rearranged Mu and Kappa Transgenes
M.C. Lamers, H. Mossmann, and G. Köhler, Freiburg i.Br.

A.14 Binding of NK-Cell FcγRIII (CD16) to B-Cell Immunoglobulin Is Regulating NK-B-Cell Interaction
P. Lenz, P. Delany, S. Hopf, W. Kolanus, and R.E.Schmidt, Hannover

Lüttich-Saal
Poster-Workshop A

16.00 – 17.30

A.15 Purification of the APO-1 Antigen, a Membrane Protein that Triggers Apoptosis
A. Oehm, G. Garcin, Susan Richards, J. Dhein, B.C. Trauth, W. Falk, and P.H. Krammer, Heidelberg

A.16 Characterization of Human Fetal Lymphocytes by Immunofluorescence, In Vitro Tests and Hybridoma Technique
U. Settmacher, S. Jahn, K. Neuhaus, E. Effenberger, P. Siegel, K. Adrian, H.-D. Volk, and R. von Baehr, Berlin

A.17 Differential Effects of Hydrocortisone (HC) on Mitogen Induced Proliferation and Ig Synthesis of Lymphocytes Depend on the Interaction of Monocytes and Activated T Cells
E. Stüttgen, H. Cleusters, and S. Markos-Pusztai, Aachen

A.18 Identification of a Human Protein Homologous to the Mouse lyb-2 B-Cell Differentiation Antigen
Ilka von Hoegen, E. Nakayama, and Jane R. Parnes, Stanford, USA

A. 19 The Low Affinity for IgE ($Fc_{\varepsilon}R$ II, CD 23) Mediates Focussing of IgE-Complexed Antigen by Human B-Lymphocytes
U. Pirron, T. Schlunk, J.C. Prinz, and E.P Rieber, Munich

Allergie
Immunologie
Kongreß
15. Sept. 1990
Samstag-Nachmittag

Aachen-Saal
Poster-Workshop H

Macrophages, Neutrophils and Cytokines

16.00 – 17.30

H.1 Interleukin-4 Enhances the Interferon-γ-Mediated Activation of Murine Macrophages for Killing of Leishmania Major Amastigotes
C. Bogdan, S. Stenger, M. Röllinghoff, and W. Solbach, Erlangen

H.2 Effects of Sodium Fluoride on Mediator Release from Human Neutrophils and Platelets
Christine Brom and W. König, Bochum

H.3 Interleukins and Signal Transduction in Human Neutrophils
J. Brom, Christine Brom, and W. König, Bochum

H.4 C1q, the First Component of Complement Binds only to Activated Human Platelets
D. Elendt, Kathrin Kirsch, and K. Malberg, Erfurt

2028902265

Source: https://www.industrydocuments.ucsf.edu/docs/pgdl0000

Aachen-Saal
Poster-Workshop H

16.00 – 17.30

H.5 Macrophages Regulate Intracellular Glutathione Levels of Lymphocytes. Evidence for an Immunoregulatory Role of Cysteine
H. Gmünder, H.-P. Eck, B. Benninghoff, S. Roth, and W. Dröge, Heidelberg

H.6 A Membrane-Bound Form of the Acute Phase Protein CRP is the Galactose-Specific Particle Receptor on Rat Liver Macrophages
Victoria Kolb-Bachofen and Grazyna Kempka, Düsseldorf

H.7 Biochemical Properties of Endogenously Synthesized MHC-Class II-Molecules Derived from Rat Langerhans Cells
U. Neiss, D. Becker, J. Knop, and K. Reske, Mainz

H.8 Characterization of Genomic FcγRIII (CD16) Clones
Patricia Pring-Åkerblom, W. Kolanus, and R.E. Schmidt, Hannover

H.9 Regulation of the Constitutive IL-6 Expression of Human Glomerular Mesangial Cells (HMC)
H.H. Radeke, J. von der Ohe, and K. Resch, Hannover

2028902266

Source: https://www.industrydocuments.ucsf.edu/docs/pgdl0000

Aachen-Saal
Poster-Workshop H

16.00 – 17.30

H.10 Immunohistological Demonstration of Two Calcium Binding Proteins MRP-8 and MRP-14 in Experimentally Induced Dermatitis
J. Roth, C. Sunderkötter, S. Teigelkamp, and C. Sorg, Münster

H.11 Evaluation of the Hetrazepine WEB 2086BS, a Specific PAF-Antagonist, to the Xenogeneic Response during Hyperacute Renal Rejection
D.M. Saumweber, R. Bergmann, J. Gokel, and C. Hammer, Munich

H.12 Activation of Human Granulocyte Functions by Hemolysin Producing Bacteria and Modulation by Interleukin-6
J. Scheffer, B. König, and W. König, Bochum

H.13 Cell-Free Supernatants of Mitogen Treated Thymocytes Promote the Differentiation of Mouse Bone Marrow Cells into Dendritic Cells
Ch. Scheicher, R. Zecher, and K. Reske, Mainz

H.14 Studies on the Metabolism of Leukotriene B4 in Differentiated Human Monocytes and U937 Cells
W. Schönfeld, Sabine Kasimir, J. Knöller, and W. König, Bochum

2028902267

Source: https://www.industrydocuments.ucsf.edu/docs/pgdl0000

Aachen-Saal
Poster-Workshop H

16.00 – 17.30

H.15 Analysis of the CD31 Antigen, a Molecule Which Is Structurally and Functionally Associated with Fc Receptors
H. Stockinger, W. Kasinrerk, S.J. Gadd, R. Eher, O. Majdic, B. Strass, W. Schreiber, E. Schnabl, and W. Knapp, Vienna

H.16 Early Differences in the Cellular Infiltrate between Resistant and Susceptible Mouse Strains after Infection with Leishmania Major
C. Sunderkötter, W. Beil, H. Bildau, J. Gutwald, and C. Sorg, Münster

H.17 Production of bFGF or TNF-α by Macrophages Does Not Appear Mandatory for the Induction of Angiogenesis
C. Sunderkötter, J. Roth, and C. Sorg, Münster

H.18 Hydroxyl Radicals, Generated at Specific Sites of Human C5 by Iron Bound to the C5 Protein, Cause
Its Activation without Cleavage
W. Vogt, Göttingen

2028902268

Allergie Immunologie Kongreß 15. Sept. 1990 Samstag-Nachmittag

Brüssel-Saal
Poster-Workshop I

Immunity to Microbes, Viruses and Parasites

16.00 – 17.30

I.1 Phenotypic Analysis of T Cells Activated by Various Bacteria
Anke Bender and D. Kabelitz, Heidelberg

I.2 Basophil Histamine Release in Burnt Patients
U. Bergmann, W. Gross-Weege, F.E. Müller, and W. König, Bochum

I.3 Activation of Human Platelets by Pseudomonas Aeruginosa
U. Bergmann and W. König, Bochum

I.4 Detection of Cytomegalovirus Immediate Early Antigen by the Alkaline Phosphatase - Anti-Alkaline Phosphatase Technique in Peripheral Blood Leukocytes
A. Bitsch, G. Bein, and H. Kirchner, Lübeck

2028502269

Source: https://www.industrydocuments.ucsf.edu/docs/pgdl0000

Brüssel-Saal
Poster-Workshop I

16.00 – 17.30

I.5 Characterization of Cloned T Lymphocytes Specific for Listeria Monocytogenes with Functional Heterogeneity In Vivo
S. Brocke, H. Reichert, I. Mohasseb, C. Peters, M. Mielke, and H. Hahn, Berlin

I.6. A Rabies-Specific Human Monoclonal Antibody with Neutralizing Activity
K. Enssle, R. Kurrle, R. Köhler, H. Müller, J. Hilfenhaus, E.J. Kanzy, and F.R. Seiler, Marburg

I.7 Suppression of Proinflammatory Mediator Release by Mucoid Isolates of Pseudomonas Aeruginosa in Cystic Fibrosis
P. Friedel and W. König, Bochum

I.8 Orally Administered Bacterial Vaccine Primes Local Immunity in Experimental Animal and Humans
M. Frühwirth, H. Wolf, and G. Wick, Innsbruck

I.9 Stimulation of Peripheral T Lymphocytes with Mycobacterial Antigens Separated by Twodimensional Gel Electrophoresis
H. Gulle, B. Schoel, and S.H.E. Kaufmann, Ulm

2028902270

Source: https://www.industrydocuments.ucsf.edu/docs/pgdl0000

Brüssel-Saal
Poster-Workshop I

16.00 – 17.30

I.10 POMC-Gene Expression in Spleen Cells Induced by Endotoxins of Virus
J. Hahn, Martina Wollenberg, U. Lendeckel, R. Walther, Renate Mentel, Ingrid Klöting, and Christine Schütt, Karlsburg

I.11 Nippostrongylus Brasiliensis-In Vitro Ig(G,E) Production in Mice
M. Hishmat, U. Stephan, Laila Abu Basha, and W. König, Bochum

I.12 Antigens Combined with or Conjugated to Lipopeptides Constitute Potent Immunogens for In Vitro and In Vivo Immunizations and for the Preparation of Human and Murine Monoclonal Antibodies
P. Hoffmann, M. Jimenez-Diaz, M. Loleit, G. Jung, R. Grimm, E. Schäfer, and W.G. Bessler, Freiburg i.Br.

I.13 Mechanism of Inflammatory Mediator Release and Cytokine Expression by Microbial Surface Components of E. coli and E. coli α-Hemolysin
B. König and W. König, Bochum

I.14 Bestatin-Induced Enhancement of in Vivo Phagocytosis by Mouse Peritoneal Cell
T. Peschke, R.Recknagel, and A. Veckenstedt, Jena

2028902271
